Crescent Ice Maker LX1631CIM

Email: info@labdex.com **website:** www.labdex.com

Description

Crescent Ice Maker LX1631CIM is a modular intelligent ice maker unit with automated ice making process. It features an ice making capacity of 100kgs/24 hrs. Built-in ice-making control device makes the whole ice making process intelligent and convenient. Features efficient, large capacity ice production with big ice storage. Built-in removable water filter ensures sanitation, health and safety of ice. High density polyurethane foam maintains insulation thus reducing power consumption.

Specifications

Max Ice production capacity	100kg/24h
Power	450W
Ice storage capacity	40 kgs
Ice shape	Crescent ice cubes
Power voitage	220-240V 50Hz
Product dimension	500 x 580 x 920 mm
Net weight	58 kgs
Packing dimension	570 x 650 x 1020 mm
Gross weight	63 kgs

Features

- Designed with dual flushing system ensuring efficient ice production
- High density polyurethane foam ensures effective insulation
- Reduces mineral build-up helping to produce clear, hard crescent cubes
- Equipped with removable water filter

- Crescent shape, crystal clear ice output

Applications

- Used in supermarkets and sea food markets, chicken processing, sea food and fishing industry, butcher shops, science experiments, biological pharmaceuticals, bakery, winery, chemical, construction, food, vegetables, deep-sea fishing, ice plant, medical, laboratory, mining, artificial ski field, catering etc.

71-75 Shelton Street Covent Garden, London WC2H 9JQ UK.
